Car Rental Services in Thailand

Thailand has car rental companies distributed throughout the country, offering a variety of vehicles for rent. Renters can choose vehicles that suit their needs.

- **Motorcycles** are suitable for 1-2 tourists and are ideal for short-distance travel due to their high maneuverability. Both the rider and passenger must always wear helmets for safety.
- **Sedans** are suitable for groups of 1-5 tourists and are the most popular choice among renters. There is a wide selection available, including compact and mid-sized cars.
- **SUV or Multi-purpose Vehicles** are suitable for specialized travel, such as camping and off-road trips.

Renters should plan their trips to select the appropriate type of rental vehicle. They should choose a reputable company and carefully read the insurance coverage terms and the car rental agreement in detail.

Using Vehicles and Roads Safely

- **Always wear a standard helmet:** Adjust the chin strap to fit snugly whenever riding or sitting on a motorcycle.
- **Buckle up your seatbelt:** Both the driver and passengers should buckle up when traveling in a car. For public transportation such as taxis, vans, and buses, seat belts must be always fastened during the journey.
- **Walking:** Whenever possible, walk on sidewalks. If there are no sidewalks, walk on the right side of the road or against the direction of traffic.
- **Crossing the Street:** Observe pedestrian traffic signals or traffic lights controlling vehicles before crossing. Look to the right before looking to the left and ensure the way is clear. Be cautious of lanes that you have not yet crossed, as vehicles may be approaching at high speed, and do not run across the street.
- **Respect Traffic Laws:** Adhere to speed limits set by law and be prepared to brake and stop safely when necessary or when pedestrians are crossing the street.

What to Do If You Have an Accident While Driving?

- 1 **Assist the Injured:** Help those who are injured and attempt to provide first aid as much as you can. Do not move the injured person. Call for Help: Dial 1669 for emergency medical assistance.
- 2 **Move Your Vehicle:** If possible, move your vehicle to a safe location to prevent further accidents.
- 3 **Contact the Police:** Call 191 to report the incident and wait at the scene to identify yourself. If you flee the scene, you will be presumed to be at fault.
- 4 **Contact Your Insurance Company:** Reach out to your insurance provider or car rental company. It is also advisable to write down the name, contact number, and license plate number of the other party involved, so the insurance representative can follow up on the matter.
